

CAS6500 CLEAR VIEW STEEL DASHER BOARD SYSTEM

The next level in
high performance rinks.

CAS6500 Series System

CAS6500 Clear View Steel Dasher Board System

Building upon the same **galvanized steel** framework as the CAS4500, the CAS6500 takes you one step further by incorporating many similar features found on professional systems, such as curved glass and glass channel and clip technology.

With the elimination of the aluminum glass supports, this postless system treats spectators to unobstructed views of all the action.

Key features:

- 1 Postless system
- 2 Clear Lexan clip
- 3 Tempered glass, curved in corners
- 4 HDPE sill and glass channel
- 5 High density polyethylene
- 6 HDPE kick
- 7 HDPE backer panel (optional)
- 8 Cast-In anchor and galvanized steel framework
